

GOIT-1 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination Functionality of the button to return to the main page "Main page"

This test shows the functionality of the button for redirection to the main page

Severity	Priority	Behavior	Type
√ Minor	↑ High	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action	Find the left arrow located at the top left of the body of the page
Input data	
Expected result	The right arrow with the main page text is on the left side of the page body

Step 2

Action	Click on the left arrow
Input data	
Expected result	1. The arrow has button functionality ... When you press the button, you are redirected to the main page

GOIT-2 / Complete evaluation of the Application / 4. "Reports"

page / 4.1 Navigation and pagination "Main Page" text functionality

Functionality of the "Main Page" text on the "Reports" page

Severity	Priority	Behavior	Type
√ Minor	↓ Low	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action	Find the text "Main page" located to the right of the return arrow to the main page in the upper left of the body of the page
--------	---

Input data

Expected result	The text should be to the right of the arrow from the top left of the body of the page
-----------------	--

Step 2

Action	Click on the text "Main page"
--------	-------------------------------

Input data

Expected result	<ol style="list-style-type: none">1. The text should be in the form of a button2. When you click on the text, you will be redirected to the main page of the web application
-----------------	---

GOIT-14 / Full evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination Using the "Forward" button integrated in the browser to return to the previous tab

Using the button to return to the reports tab after being redirected to the "Main Page"

Severity	Priority	Behavior	Type
^ Major	↓ Low	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action	Click on the "Main Page" arrow at the top left of the body of the page
--------	--

Input data

Expected result	<ol style="list-style-type: none">1. The arrow is located in the upper left of the body of the page2. The arrow is pressable3. When you click on this arrow, you are redirected to the main page
-----------------	--

Step 2

Action	Click on the forward button located at the top left of the browser used
--------	---

Input data

Expected result	When you click on the "Forward" button, you are redirected to the "Reports" page
-----------------	--

GOIT-6 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and paging Functionality of the "Previous" button of the pager for navigation between months

Checking the functionality of the previous arrow of the pager to navigate in the previous months from the "Reports" window

Severity	Priority	Behavior	Type
<input type="checkbox"/> Normal	<input type="checkbox"/> Medium	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action	The button in the form of an arrow of the pager is in the upper right of the body of the page to the left of the current month of the report
--------	--

Input data

Expected result	<ol style="list-style-type: none">1. The arrow is located in the upper right of the body of the page to the left of the current month of the report2. The arrow is static and does not move with the change of the month in the report
-----------------	---

Step 2

Action	Click on the pager arrow
--------	--------------------------

Input data

Expected result	<ol style="list-style-type: none">1. The arrow is functional2. When you click on this arrow, the previous month is displayed
-----------------	---

GOIT-9 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination The functionality of the "Next" button of the pager for navigation between months

Checking the functionality of the "Next" arrow of the pager to navigate to the following months from the "Reports" window

Severity	Priority	Behavior	Type
<input type="checkbox"/> Normal	<input type="checkbox"/> Medium	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. Have a valid "Cashify" account
2. Be logged in the web application
3. Be on the "Reports" page

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action	The button in the form of an arrow of the pager is in the upper right of the body of the page to the right of the current month of the report
--------	---

Input data

Expected result	<ol style="list-style-type: none">1. The arrow is located in the upper right of the body of the page to the right of the current month of the report2. The arrow is static and does not move with the change of the month in the report
-----------------	--

Step 2

Action	Click on the pager arrow
--------	--------------------------

Input data

Expected result	<ol style="list-style-type: none">1. The arrow is functional2. When you click on this arrow, the next month is displayed
-----------------	---

GOIT-116 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination The user can see the total amount of income

The user can see the total amount of income written under the name "Income"

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The date must be changed in the computer one month in the future

Parameters

Device: Phone, Desktop, Tablet

Steps to reproduce

Step 1

Action	Check the presence of the "Income" section at the top of the body of the page
--------	---

Input data

Expected result	The income section is present at the top of the body of the page
-----------------	--

GOIT-62 / Full Evaluation of the Application / 4. "Reports" Page / 4.1 Navigation and pagination Upper limitation of the pager in the "Reports" window if the computer date is changed to one month in the future

This test shows that you cannot navigate to a future month in the "Reports" page

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The date must be changed in the computer one month in the future

Parameters

Device: Phone, Desktop, Tablet

Steps to reproduce

Step 1

Action Change the computer date to one month in the future

Input data

Expected result The date of the computer is changed one month in the future

Step 2

Action Access the Cashify page in the browser

Input data

Expected result The cashify page is accessed

Action Click on the "Reports" button

Input data

Expected result The reports page is displayed on the page

Step 4

Action Check the date in the pager

Input data

Expected result The pager must display the actual current month, based on the actual time, not the date manipulated in the system

GOIT-61 / Complete Evaluation of the Application / 4. "Reports" Page / 4.1 Navigation and Pagination
The upper limitation of the pager in the "Reports" window

This test shows that you cannot navigate to a future month in the "Reports" page

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Parameters

Device: Phone, Desktop, Tablet

Steps to reproduce

Step 1

Action	Click on the arrow on the right of the pager
--------	--

Input data	
------------	--

Expected result	1. Reports for future months cannot appear
-----------------	--

GOIT-60 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination The lower limitation of the pager for the current and previous months

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page

Step 2

Action	Click on the left arrow of the pager
--------	--------------------------------------

Input data

Expected result	<ol style="list-style-type: none">1. The current month is displayed in the pager2. The monetary expenses and incomes are displayed on the page
-----------------	---

GOIT-38 / Full evaluation of the Application / 4. "Reports" page / 4.1 Navigation and paging Using the "Reload" button built into the browser

Using the "Reload" button updates the reports if two devices are used simultaneously on the same account

Severity	Priority	Behavior	Type
^ Major	↓ Low	Positive	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user must be on the "Reports" page
5. The user should open the link twice in the browser:
 1. On the "Reports" page (under the name "A")
 2. On the "Main Page" (under the name "B")

Parameters

Device: Desktop, Tablet, Phone

Steps to reproduce

Step 1

Action The user should be on page B

Input data

Expected result Page B is displayed on the screen

Step 2

Action Click on the "Income" capsule at the top left of the body of the page

Input data

Expected result A table will open with the amounts of money received on the current date

Step 3

Action Complete the fields: Product description, Product Category and a numerical amount in the field dedicated to the amount of money received

Input data

Expected result The fields have been filled in with the desired data

Step 4

Action Click pe "Input"

Input data

Expected result The entered data has been added to the table at the bottom of the page body

Step 5

Action The user changes the tab to page A

Input data

Expected result Page A is displayed in the browser

Step 6

Action Press the "Reload" button integrated in the browser

Input data

Expected result

1. The page is reloading
2. The amount of money is updated in the "Income" section

GOIT-128 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination The user can see the total amount of income

The user can see the total amount of income written under the name "Income"

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted

Actual	No		

Pre-conditions

1. To have a valid "Cashify" account
2. To be logged in the application
3. To be on the reporters page

Parameters

Device: Phone, Tablet, Desktop

Steps to reproduce

Step 1

Action	Navigate to the section that displays transactions per month
--------	--

Input data

Expected result

Step 2

Action	Select a month from the past using the calendar navigation option
--------	---

Input data

Expected result

Step 3

Action	Choose the month you want to see the total amount
--------	---

Input data

Expected result	The total amount must coincide with the initial amount
-----------------	--

GOIT-134 / Full App Evaluation / 4. "Reports" Page / 4.1 Navigation and Paging The user tries to navigate to a future month using the pager.

Checking the behavior of the application when the user tries to navigate to a future month, which should not contain transactions, using the pager.

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Exploratory
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. To have a valid "Cashify" account
2. To be logged in the application
3. To be on the reporters page

Parameters

Device: Phone, Tablet, Desktop

Steps to reproduce

Step 1

Action	Navigate to the main section
--------	------------------------------

Input data

Expected result

Step 2

Action	Select a month in the future using the calendar pager option
--------	--

Input data

Expected result

Step 3

Action	Complete the product, category and soup fields, then click on input
--------	---

Input data

Expected result

Step 4

Input data

Expected result	The amount is not recorded and displayed
-----------------	--

GOIT-142 / Full Evaluation of the Application / 4. "Reports" Page / 4.1 Navigation and paging The user tries to use the pager, but it does not work (it does not respond to the click).

Checking the behavior of the application when the user tries to use the pager, but it does not respond to the click.

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Exploratory
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

- 1. To have a valid "Cashify" account
- 2. To be logged in the application
- 3. To be on the reporters page

Parameters

Device: Phone, Tablet, Desktop

Steps to reproduce

Step 1

Action	Navigate to the section showing transactions per month, where the pager is visible.
--------	---

Input data

Expected result

Step 2

Action	Try using the pager to navigate between upcoming months
--------	---

Input data

Expected result	The pager does not respond to the click and blocks the action
-----------------	---

GOIT-143 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination Updating the "Income" field according to the introduction of a new amount of money

The user can see the total amount of income written under the name "Income" updated after each entry of a new amount

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation
E2E	No	-	Manual
Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user should be in the reports window

Parameters

Device: Phone, Desktop, Tablet

Steps to reproduce

Step 1

Action	Check the amount of money in the "Income" field
Input data	
Expected result	The amount of money is displayed in the Income field
	

Step 2

Action	Click on the redirection arrow to "Main Page"
Input data	
Expected result	The user is redirected to the main page

Step 3

Action	Click on the "Income" tab at the top left of the page body
--------	--

Step 4

Action Complete the fields related to entering an amount of money

Input data

Expected result The fields are completed

Step 5

Action Click on the "Input" button

Input data

Expected result The amount of money is entered and appears in the table related to entering a new amount of money

Step 6

Action Click on the "Reports" button located at the top right of the body of the page

Input data

Expected result The user is redirected to the "Reports"

Step 7

Action Check the "Income" field located in the upper middle of the body of the page

Input data

Expected result The amount of money is updated in the "Reports" window next to the text "Income"

GOIT-146 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination Updating the "Expenses" field according to the introduction of a new amount of money

The user can see the total amount of expenses written under the name "Expenses" updated after each addition of a new expense

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
Layer	Is Flaky	Milestone	Automation

Status	Is Muted		
Actual	No		

Pre-conditions

1. The user should have open in the browser: <https://kapusta-qa-ro.p.goit.global/>
2. The user must have a valid "Cashify" account
3. The user must be logged in the web application
4. The user should be in the reports window

Parameters

Device: Phone, Desktop, Tablet

Steps to reproduce

Step 1

Action	Check the amount of money in the "Expenses" field
--------	---

Input data

Expected result	The amount of money is displayed in the Expenses field
-----------------	--

Step 2

Action	Click on the redirection arrow to "Main Page"
--------	---

Input data

Expected result	The user is redirected to the main page
-----------------	---

Step 3

Action	Click on the "Expenses" tab at the top left of the page body
--------	--

Input data

Expected result	The Expenses window opens in the body of the page
-----------------	---

Input data

Expected result	The fields are completed
-----------------	--------------------------

Step 5

Action	Click on the "Input" button
--------	-----------------------------

Input data

Expected result	The amount of money is entered and appears in the table related to entering a new amount of money
-----------------	---

Step 6

Action	Click on the "Reports" button located at the top right of the body of the page
--------	--

Input data

Expected result	The user is redirected to the "Reports
-----------------	--

Step 7

Action	Check the "Expenses" field located in the upper middle of the body of the page
--------	--

Input data

Expected result	The amount of money is updated in the "Reports" window next to the text "Expenses"
-----------------	--

GOIT-147 / Complete evaluation of the Application / 4. "Reports" page / 4.1 Navigation and pagination

The reaction of the reports page if an amount of money is added in a future month

The user can see the total amount of expenses written under the name "Expenses" updated after each addition of a new expense

Severity	Priority	Behavior	Type
^ Major	↑ High	Negative	Functional
